Senior Systems Welcomes New Vice President of Business Development

Palmdale, CA – October 23, 2010 – Senior Systems, a leading Electronics Manufacturing Services (EMS) provider of printed circuit board assemblies and electronics product assemblies announced the addition of another key management position today. Gregg Mozdy has joined the Southern California firm as Vice President of Business Development. Mr. Mozdy is an experienced electronics industry executive with an extensive background in sales, marketing and management acquired while with LSI Logic, Lattice Semiconductor and, most recently, LaBarge, where he held a variety of roles including Director of Business Development. He holds a B.S. in Electrical Engineering from Ohio Northern University.

"Gregg's addition to the team underscores our commitment to expanding our reach into additional markets and establishing new customer relationships." noted Senior Systems President/CEO Tim Morrissey.

Senior Systems was recently recognized as an ITT Distinguished Supplier and welcomes this key addition to its management team as the company continues to expand its presence in the defense, medical and industrial markets.

A leading EMS provider, Senior Systems specializes in high-reliability, high-cost-of-failure assemblies. From printed circuit board assemblies (PCBA) to full system integration and box-build, the company exceeds stringent quality requirements to ensure products work the first time and all the time. "With our emphasis on lean culture and execution of visual manufacturing techniques, customers can truly rest easy knowing that their assemblies are in the most competent hands," states Tim Morrissey, President and CEO at Senior Systems. "Every day our

goal is to achieve great things for our customers, ensuring that we exceed their expectations. This capital equipment investment again demonstrates our commitment to providing our customers access to the latest capabilities and highest quality processes.”

Senior Systems provides contract electronics manufacturing services to advanced technology companies primarily in the military/aerospace, medical, industrial and computing sectors. The company’s capabilities include design for manufacturing, prototype and production circuit board assembly, materials procurement and control, manufacturing and test engineering support, complete systems build and final product packaging and logistics. As a full service EMS provider, Senior Systems is ISO 9001:2008, ISO 13485:2003, FDA/GMP and AS9100 registered, as well as being an NSA-approved supplier under the COMSEC standard.
