Senior Systems To Exhibit At MD&M Texas March 14-15

Palmdale, CA – February 16, 2012 – [Senior Systems](#), a mid-tier electronic manufacturing services (EMS) company serving the Medical, Commercial/Industrial, CleanTech and Military/Aerospace industries will be exhibiting at the Medical Design & Manufacturing (MD&M) Texas Conference and Expo, March 14-15, 2012 at the Fort Worth Convention Center in Fort Worth, Texas

Representatives from Senior Systems will be available at Booth # 338 to provide more information on the company, answer questions, and highlight recent capital equipment additions.

“We’ve been in the medical industry for three decades,” says Gregg Mozdy, VP of Business Development at Senior Systems. “Our collective expertise and knowledge has led our customers to know they can depend on us to build assemblies of absolute integrity and reliability. We are looking forward to telling our story to prospective clients at the show and discovering how we may be able to address their needs.”

A leading EMS provider, Senior Systems specializes in high reliability, “high-cost-of-failure” assemblies. From printed circuit board assemblies (PCBA) to full system integration and box-build, the company exceeds stringent quality requirements to ensure products work the first time and all the time.

Senior Systems provides contract electronics manufacturing services to advanced technology companies primarily in the Medical, Commercial/Industrial, CleanTech and Military/Aerospace sectors. The company’s capabilities include design for manufacturability and testability, prototype and production circuit board assembly, materials procurement and control, manufacturing and test engineering support, complete box-build, and final product packaging and logistics.

As a full service EMS provider, Senior Systems is ISO 9001:2008, ISO 13485:2003 and AS9100 certified, ITAR registered and FDA registered to build medical devices/products.
