**Senior Systems Signs New Representative in Pacific Northwest**

Palmdale, CA – June 15, 2011 – Senior Systems Technology is pleased to announce the hiring of its newest manufacturer’s representative, Western Technical Sales (Wes-Tek). Wes-Tek will be responsible for identifying leads and acquiring new business in Senior Systems’ Pacific Northwest territory, including Washington, Oregon, and Idaho.

Wes-Tek has a reputation in the Northwest for providing exceptional customer service and stellar technical support. Offering a combination of experience and ethical partnerships, Wes-Tek is a highly sought-after representative for companies like Senior Systems. “We are excited to have the Wes-Tek team help us drive growth in the Pacific Northwest,” said Gregg Mozdy, VP of Business Development at Senior Systems. “They will be a tremendous asset to us as we look to grow in this territory.”

“We feel that our core technical competencies, combined with the operational excellence at Senior Systems, will be a winning combination in our account base,” stated Pete Thunem, Partner and Manager of the Beaverton, Oregon office. Wes-Tek joins Harper & Two in Southern California in expanding Senior Systems’ representative network.

Senior Systems provides contract electronics manufacturing services to advanced technology companies primarily in the military/aerospace, medical, industrial and computing sectors. The company’s capabilities include design for manufacturing, prototype and production circuit board assembly, materials procurement and control, manufacturing and test engineering support, complete systems build, and final product packaging and logistics. As a full service EMS provider, Senior Systems is ISO 9001:2008, ISO 13485:2003, FDA/GMP and AS9100 registered, as well as being an NSA-approved supplier under the COMSEC standard.

Western Technical Sales (Wes-Tek), established in 1966, is a manufacturer’s representative headquartered in Bellevue, Washington, with a satellite office in Beaverton, Oregon. The company has longstanding relationships with major accounts in the Pacific Northwest, enabling them to provide excellent support to both OEM and Distribution selling channels. Their sales focus is on leading edge ICs, passive/active components, electromechanical products and contract manufacturing.
